ABOUT

Django REST APIs and seamlessly integrating them with React-based frontends. Proficient in relational database design, optimization, and management, with a track record of delivering scalable, maintainable web applications. Strong collaborator who thrives in agile environments and is passionate about crafting intuitive user experiences and clean, well-documented code.

WORK EXPERIENCE

Full Stack Developer Intern at Kohat University of Science and Technology – Department of IOC **June 2024 - Oct 2024**

During my tenure as a Full Stack Developer Intern at Kohat University of Science and Technology's Department of IOC, I spearheaded the development of a comprehensive Final Year Project (FYP) Management System.

- Led full-stack development (Django REST Framework, React) of an FYP Management System.
- Built RESTful APIs for backend logic and data handling.
- Implemented secure access using Token Authentication & RBAC (Students, Evaluators, Coordinators).
- Developed dynamic group management (create, join, approve, delete).
- Created coordinator tools for section management & file upload configuration.
- Crafted a responsive frontend (React, Axios, Tailwind CSS) with role-specific dashboards.
- Managed data persistence using PostgreSQL.
- Delivered the system in 5 months, enhancing FYP process efficiency and transparency.

EDUCATION

Bachelor of Software Engineering **Oct 2021 - JUL 2025**

- Kohat University of Science and Technology
- Major in Software Engineering
 - FYP on "QR Code Based Restaurant Management System".

HSSC in Computer Science **Jul 2019 - Aug 2021**

Karwan Model College, Kohat

HSSC in Computer Science **Jul 2019 - Aug 2021**

Karwan Model College, Kohat

ADDITIONAL INFORMATION

- **Technical Skills:** Django · Django REST Framework · Python, PostgreSQL, GitHub
- **Languages:** English, Urdu.
- **Certifications:** Meta Certification in Django (Django REST APIs & Advanced Web Development), Meta Certification in Databases, Meta Course in Version Control
