ABOUT ME

Hello, I'm Hasnain Ahmed, a passionate UI/UX designer with over 3 years of professional experience, specializing in creating user-centric designs and optimizing digital experiences. I also excel in social media branding, blending creativity with strategy to deliver impactful results.

I began my academic journey at International Public School, followed by FSC at Karwan Model College, and I'm currently in my 7th semester of Software Engineering at Kohat University of Science and Technology. My technical background, combined with my design expertise, uniquely positions me to tackle design challenges that balance both aesthetics and functionality.

WORK EXPERIENCE

UI/UX Designing at Uzair Technology — 2022 / Present

At Uzair Tech, I've had the opportunity to lead design teams, manage social media strategies, and work on a variety of projects including mobile apps and websites. Additionally, I take pride in mentoring teams to enhance their UI/UX skills and social media branding capabilities. I'm always eager to push the boundaries of design and technology, crafting memorable user experiences that drive business success. Let's connect and explore opportunities to create impactful projects together.
